I can't believe it is april already! Spring has sprung and it is officially time to start thinking about getting outside with the boys and enjoying some spring sun - not to mention taking some time to spring clean my life a bit - getting rid of clutter, finding a schedule that makes me productive as possible and ofcourse, remembering to stop to smell the flowers that are going to start popping up everywhere!

I am really excited that I have finally saved up enough for the Photoshop Creative Suite, and I am really thrilled to be writing to you from In Design. Please bear with me as this newsletter is sure to have a few tweaks! But also, stay tuned because I can't wait for all the new improved goodies I'll be able to bring you using my new improved tools!

"Live" by Jill Anderson using Carpe Diem

My name is Rachael Giallongo! I have been married to Scott since Leap Year Day 1996! Between us, we have 5 children- Nicole is 17, Victoria is 14, Megan is 12, Dane is 9 and Dylan is 8. We live in southern NH in a small town just outside Manchester.

My husband is a chef and I work part time in the marketing department for a high end furniture manufacturer here in NH.

I started paper scrapping in 1998. I have had the honor of having my work appear in: Creating Keepsakes, Memory Makers, Scrapbook Trends, Simple Scrapbooks, Scrap & Stamp Arts and several other publications. I created my first digital scrapbook page in July 2005 on the train on my way to the CHA summer show. Between July & November I created 30 or so layouts. In November, the bug really hit me hard and I have created 900+ layouts since that time with new“ layouts added to my gallery almost daily.”

I'm so excited to have Rachael as a part of our team for the months of March and April! Her gallery is just brimming with inspiration, and her pages really reflect her passion for scrapbooking. I am sure that you will really enjoy all of Rachael's incredible work!

Welcome to the team Rachael!

Capricious is a kit that I made on a whim... i was just drawn to this picture i saw with sort of graphic images and these soft pretty organic colors, plus some bold dark brown weight. Throughout the whole process of creating papers and elements it was fun to just follow my mood a create as the mood struck me. When I was done, there was no better name than to actually call this capricious kit - Capricious. You can now pick the papers and elements up at My Little Scraps, or save by picking up the full Combo Pack!

I this page from Cindy using "Inverted Doodle Love" in the Sweet Shoppe Designs gallery. It jumped right out at me, with these perfectly adorable pictures! And she really filled this page with enough elements to give it the perfect whimsical feel.

Cinday says "I absolutely love that kit, the colours are beautiful and there were so many unique elements in it! I thought it would look beautiful for a summer page and it went really nicely with the pictures!

Well Cindy this page is a gem! Thank you so much for sharing!
